Dewey Travels

Rodgers Memorial Library is embarking on a new project for the next three months. Not everyone understands or is at ease with the Dewey Decimal classification system used in most public libraries. This particular short term plan aims to assist patrons with comfortably browsing travel and language materials with little or no assistance from library staff. Books, audiobooks and DVDs on these subjects will be shelved together near the circulation desk, pulling all the materials together into one place for the first time. There are other categories the library could use in the future (such as Work, Home, Play, Nature, etc.) which could improve browsability. Please have a look at this new shelving scheme and share any comments with staff.

Otherwise, the summer may end up filled with 'obligations' rather than joys. This presentation will walk through the steps to create the summer of your dream. These tools can be applied to any season or event in your life, so you'll walk away with a handout you will use over and over again.

Presented by Master Life Coach Diane MacKinnon, MD. Pre-registration requested. Register online or call 886-6030.
